

14 - 17 February 2010**Hotel Zamek Ryn, Poland**

The Andrzej Soltan Institute for Nuclear Studies (Świerk, Poland) and the European XFEL (Hamburg, Germany) jointly organize an International Workshop on X-ray Diagnostics and Scientific Application of the European XFEL. It is dedicated to the presentation and discussion of new concepts and ideas in the area of special diagnostics of X-ray FEL radiation, requesting e.g. the single shot measurement of time domain, spectral and coherence properties. Furthermore, scientific projects involving intense, ultrafast and coherent X-ray FEL radiation will be presented.

The Workshop will be accompanied by a seminar on the rising perspectives on FEL applications for the studies currently carried with quantum lasers and synchrotrons.

■ ■ ■ **Young scientists bursaries**
Deadline January 10th 2010
(see website for details)

The workshop is co-funded by the European Commission through the Pre-XFEL grant. This will allow free of charge access to the workshop.

**Local organizer**

The Andrzej Soltan Institute
for Nuclear Studies
Świerk, Poland

**International Programme Committee**

Christian David (PSI)
Gyula Faigel (SZFKI)
Jan Grünert (European XFEL)
Jacek Krzywiński (SLAC)
Serguei Molodtsov (European XFEL)
Kai Tiedtke (DESY)
Thomas Tschentscher (European XFEL)
