## **The International Workshop on X-ray Diagnostics and Scientific Application of the European XFEL**

### SECOND CIRCULAR

Dear colleagues,

The International Workshop on X-ray Diagnostics and Scientific Application of the European XFEL will hold in Ryn in the Eastern North of Poland on 14<sup>th</sup> – 17<sup>th</sup> February 2010. This workshop is the 6<sup>th</sup> in a series of workshops for the instrumentation and applications and of the upcoming European XFEL. The current issue is dedicated to the pulse diagnostics: coherence, energy spectrum, duration and arrival time measurements. Those operant topics will be completed with lectures on the scientific applications of x-ray coherent beam.

Please visit the website [www.xfel.pl/ryn2010](http://www.xfel.pl/ryn2010) to find details and the site on the registration and venue. There will be no registration fee. The deadline for registration has been set to Feb. 1, 2010.

We are happy to announce the availability of a limited number of young scientists bursaries to support travel and accommodation. Applications have to be made by Jan. 15, 2010. Further information is posted on the website.

Please transfer this information to your group members and interested colleagues.

This workshop is sponsored by the European Community through the Pre-XFEL grant. We gratefully acknowledge organisation and support by The Andrzej Soltan Institute for Nuclear Studies.

The Workshop will be accompanied with a parallel seminar on the scientific programme, users needs and beamlines concept for the planned Polish free electron laser POLFEL. Please observe the website [www.xfel.pl/ryn2010seminar](http://www.xfel.pl/ryn2010seminar)
